In the mitins we have had with my group I have told them about my book, and it sounds very interesting to them, that they have seen it and that it is very good because since the first book came out, it became very famous and was a trend until today.

I think I need to improve my pronunciation, practice more and study the verbs more, because when I read it, it was a little complex to understand it. When listening to it, what made it complex was that there were very complex words in its pronunciation and it was difficult for me to follow the audio with the reading. with the reading.
